

# Endometriosis 2017

**FROM DIAGNOSIS TO MEDICAL AND SURGICAL MANAGEMENT:  
A STOCKTAKING INTERNATIONAL EXPERTS' MEETING**

## **Main Topics**

- Detailed description of female pelvic surgical anatomy
- Detailed anatomical evaluation of pelvic endometriosis, special focus on Deep Infiltrating Endometriosis (DIE) locations
- Imaging techniques for pelvic endometriosis diagnosis
- Detailed description of surgical endoscopic techniques for DIE treatment
- Medical treatment options
- Endometriosis and reproductive outcome
- Proper indications to surgical, medical and/or ART treatments

## **ORGANIZATION AND LOCATIONS**

The Conference shall take place at the prestigious location of Castel dell' Ovo; the scientific program shall include Live Surgery and Main Lectures.

If the number of participants shall exceed one meeting room's maximum capacity, two rooms shall be arranged.

The main lectures shall alternatively take place in both rooms, thus always ensuring audio and video connection to the other room, (both the speaker's image and slides), in addition to the possibility to communicate with the chair and the speaker in the other room.

The agenda shall include the live transmission of the surgeries taking place in the Ruesch clinic, with images and audio connection simultaneously available in both meeting rooms.

# Endometriosis 2017

FROM DIAGNOSIS TO MEDICAL AND SURGICAL MANAGEMENT:  
A STOCKTAKING INTERNATIONAL EXPERTS' MEETING

## PRELIMINARY PROGRAM

### ***SEPTEMBER 10-13, 2017***

**Pre-Congress courses**

First Romeo's Gladiator Rule Meeting

### ***SEPTEMBER 10-11-12, 2017***

**Pre-Congress Gladiator Suturing Course + Master Class Course "Train the Trainer"**

**Advanced level stitch and Knot Tying with complicated angles**

### ***SEPTEMBER 13, 2017***

***Gladiator Games***

- Gladiator video award
- Basic suturing challenge
- Tutor challenge

### ***SEPTEMBER 14, 2017***

*08.30 am*                      **Opening Ceremony**

*9.00 am - 09.30 am*        **Opening Lecture**  
Endometriosis: an ongoing challenge from a pioneer's point of view

*09.30 am - 10.00 am*    **Main Lecture**  
Surgical anatomy of female pelvis: Neuropelveology for nerve sparing approach

*09.30 am - 01.00 pm*    **Live Surgery**  
Live pre-operative ultrasound scan/surgeons' pre-and postoperative interview/interactive debates during surgery.

*01.00 pm - 01.30 pm*    **Main Lecture**  
Ultrasound evaluation of Pelvic Endometriosis: anterior and adnexal compartment

# Endometriosis 2017

FROM DIAGNOSIS TO MEDICAL AND SURGICAL MANAGEMENT:  
A STOCKTAKING INTERNATIONAL EXPERTS' MEETING

## PRELIMINARY PROGRAM

- 01.00 pm - 02.00 pm* **Main Lecture**  
Ultrasound techniques of Pelvic Endometriosis: posterolateral compartment
- 02.00 pm - 02.30 pm* **Main Lecture**  
Magnetic Resonance and other imaging techniques: when and why we should ask for them
- 02.30 pm - 03.00 pm* Discussion
- 03.00 pm - 06.00 pm* **Live Surgery**  
Live pre-operative ultrasound scan/surgeons' pre-and postoperative interview/interactive debates during surgery.

## **SEPTEMBER 15, 2017**

- 08.30 am - 09.00 am* **Main Lecture**  
Urinary tract endometriosis: Surgical approach for bladder nodules
- 09.00 am - 09.30 am* **Main Lecture**  
Urinary tract endometriosis: From ureterolysis to ureteral reimplantation
- 09.30 am - 12.30 pm* **Live Surgery**  
Live pre-operative ultrasound scan/surgeons' pre-and postoperative interview/interactive debates during surgery.
- 12.30 pm - 01.00 pm* **Main Lecture**  
Bowel endometriosis: Less is better... nodulectomy indications and surgical techniques
- 01.00 pm - 01.30 pm* **Main Lecture**  
Bowel endometriosis: Segmental bowel resection... sometimes we should perform it.  
Proper indications and surgical technique

# Endometriosis 2017

FROM DIAGNOSIS TO MEDICAL AND SURGICAL MANAGEMENT:  
A STOCKTAKING INTERNATIONAL EXPERTS' MEETING

## PRELIMINARY PROGRAM

- 01.30 pm - 02.00 pm* **Main Lecture**  
Adenomyosis: When surgical management is an option
- 02.00 pm - 02.30 pm* Discussion
- 02.30 pm - 05.30 pm* **Live Surgery**  
Live pre-operative ultrasound scan/surgeons' pre-and postoperative interview/interactive debates during surgery.

## SEPTEMBER 16, 2017

- 08.30 am - 08.50 am* **Main Lecture**  
Ovarian endometrioma: Management and surgical treatment technique. What impact on ovarian reserve?
- 08.50 am - 09.10 am* **Main Lecture**  
Endometriosis and infertility: Reproductive outcomes following ART procedures
- 09.10 am - 09.30 am* **Main Lecture**  
Fertility preservation for patients with endometriosis: Advantages from oocytes vitrification and potential impact of ovarian stimulation on disease progression
- 09.30 am - 09.50 am* **Main Lecture**  
Risk of adverse pregnancy outcome in women with adenomyosis/DIE
- 09.50 am - 10.10 am* **Main Lecture**  
Medical treatment options for patients with endometriosis
- 10.10 am - 10.30 am* Discussion
